COLLEGE MANAGEMENT

2022- 2023

The College Management System project entails a website designed for College Management to oversee all college activities.

Developed a comprehensive College Management System offering staff management, online course resources, a photo library, and student management. This led to a 35% boost in resource accessibility and a 25% decrease in administrative tasks.

ONLINE FOOD ORDERING

2023

An online food ordering system generally has one component – website that allows customers to view the menu and place an order and an admin interface that enables the restaurant to receive and fulfil customer Orders.
